

## 2431 ATHLETIC COMPETITION (M)

M

The Board of Education recognizes the value of a program of athletic competition for both boys and girls, as an integral part of the total school experience. Game activities and practice sessions provide opportunities to learn the values of competition and good sportsmanship. Programs of athletic competition, both intrascholastic and interscholastic, offer students the opportunity to exercise and test their athletic abilities in a context greater and more varied than that offered by the class or school or school district alone, and an opportunity for career and educational development.

For purposes of this policy, programs of athletic competition include all activities relating to competitive sport contests, games, events, or sports exhibitions involving individual students or teams of students when such events occur between schools within this district, with any schools outside this district. The programs of athletic competition shall include, but are not limited to, high school interscholastic athletic programs, middle school interscholastic athletic programs where school teams or squads play teams or squads from other school districts, and/or intramural athletic programs within a school or among schools in the district and any cheerleading program or activity in the school district.

Since athletics form an integral part of the total educational program of this district, all coaches directing athletic activities shall hold a teaching certificate (standard or substitute), and shall have adequate knowledge in their coaching field, their activities shall be coordinated under the direction of the Athletic Director.

The Board of Education shall insure adequate financial support for a program of athletics so that a Board interscholastic athletic program shall not be solely dependent upon gate receipts for its financial support.
